

Invitation for Stakeholder Input

Regulation 2 Section 10: Affordable Health Insurance – Affordability Standards

As required by [Regulation 2 Section 10\(e\)\(2\)\(A\)](#): on or before January 1 of each year the Commissioner shall solicit comments from stakeholders, and issue formal guidance concerning whether the population-based contracting targets established in Subsection (d)(1)(A-C), the population-based contract budget limits established in Subsection (d)(4)(B), the care transformation requirements established in Subdivision (c)(1), or the alternative payment requirements established in Subdivision (d)(2)(B) should be modified:

(i) to create or maintain an effective incentive for hospitals and providers to participate in care transformation, population-based contracts and alternative payment arrangements; or

(ii) to account for unanticipated and profound macroeconomic events, or similarly significant changes in systemic utilization or costs that are beyond the ability of the Health Insurer to control, such that application of the budget limit would be manifestly unfair.
